

7 Secrets of Success

I found the answers in my room.

1. Roof said: Aim high
2. Fan said: Be cool
3. Clock said: Every min. is precious
4. Mirror said: Reflect before you act
5. Window said: See the world
6. Calendar said: Be up-to-date
7. Door said: Push hard to achieve your goals.

AIR AND WATER AND PLANTS AND ANIMALS

Air

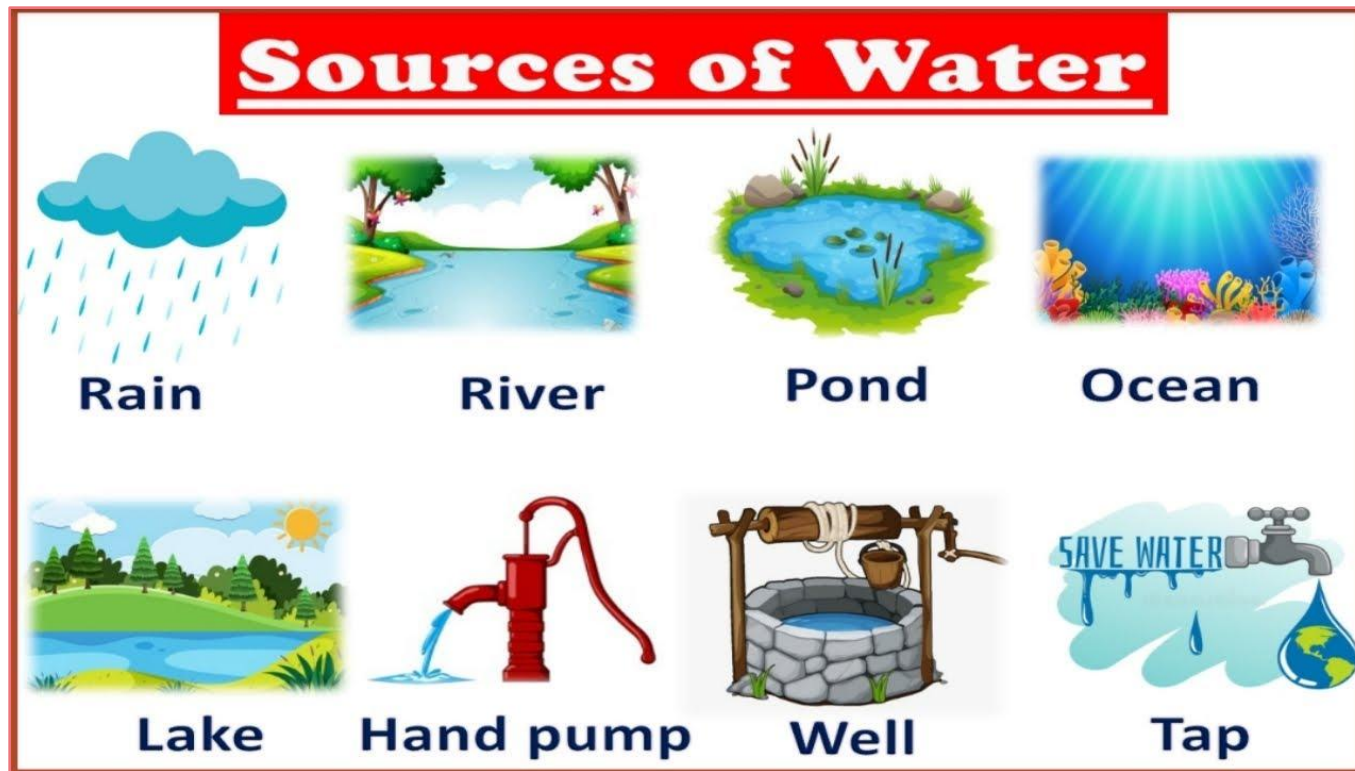

The earth is surrounded by a thin layer of air. Plants, animals and human beings need air to live. Air is made up of gases, water, and dust. We cannot see or hold air but we can feel it when it moves.

Moving air is called wind.

Water

Water is very important to us. All living things such as plants, animals, insects, birds, and fishes need water to live.

Rain and snow are the most important sources of water.

Uses of Water

- *Drinking
- *Bathing
- *Washing
- *Cooking
- *Cleaning
- *Grow plants

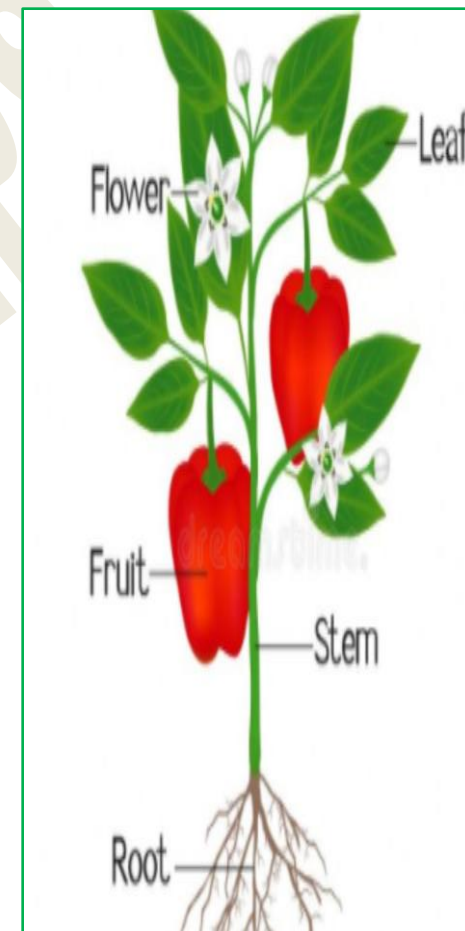

PLANTS AND ANIMALS

The world around us is full of plants and animals. They share this earth with us. Like us, Plants and animals too need air, water and food to grow.

PLANT

**A plant has many different parts.
They are the root, the stem, the leaf
and the flower.**

Root: It also take in water and nutrients from the ground.

Stem: It also takes food and water to the different parts of the plant.

Leaf: It makes food for the plant.

Flowers: It use their colour and sweet smell to attract insects.

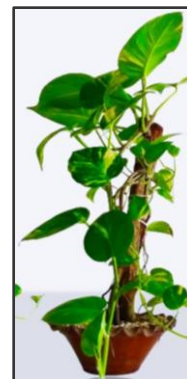

Shrubs are small plants with strong woody stems.

Herbs are small plants with soft stems.

Climbers are plants with very weak stems.

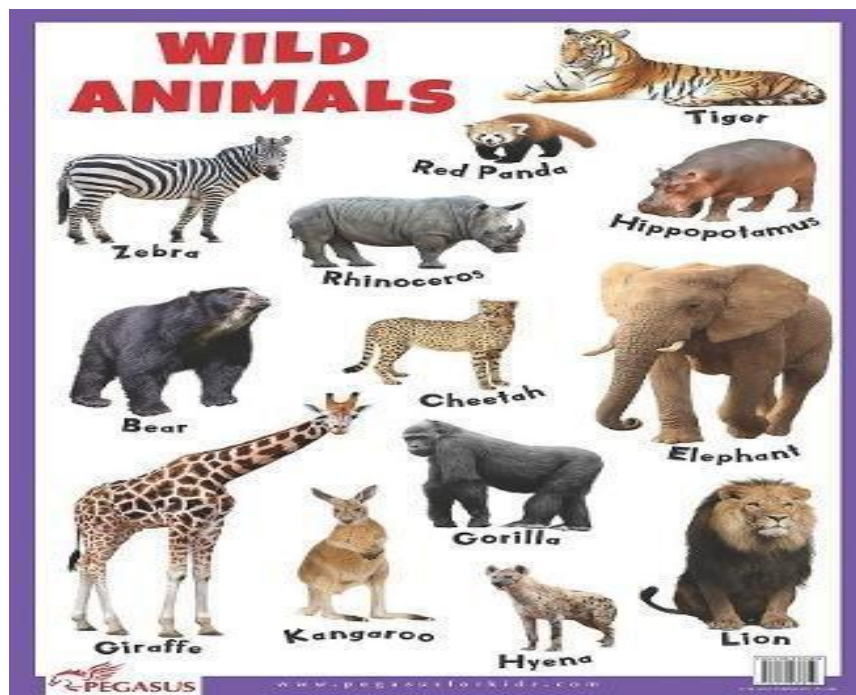

Creepers too have very weak stems.

Animals

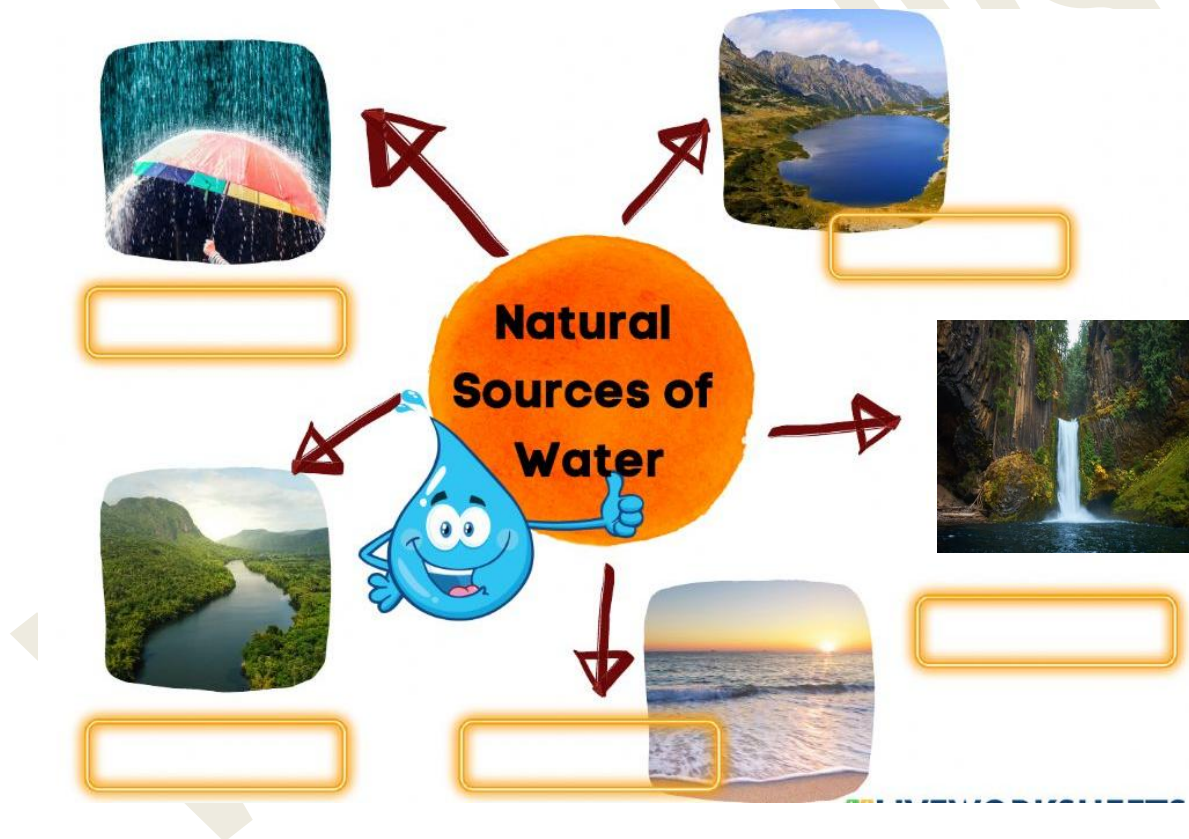

❖ Wild animals

❖ Domestic animals

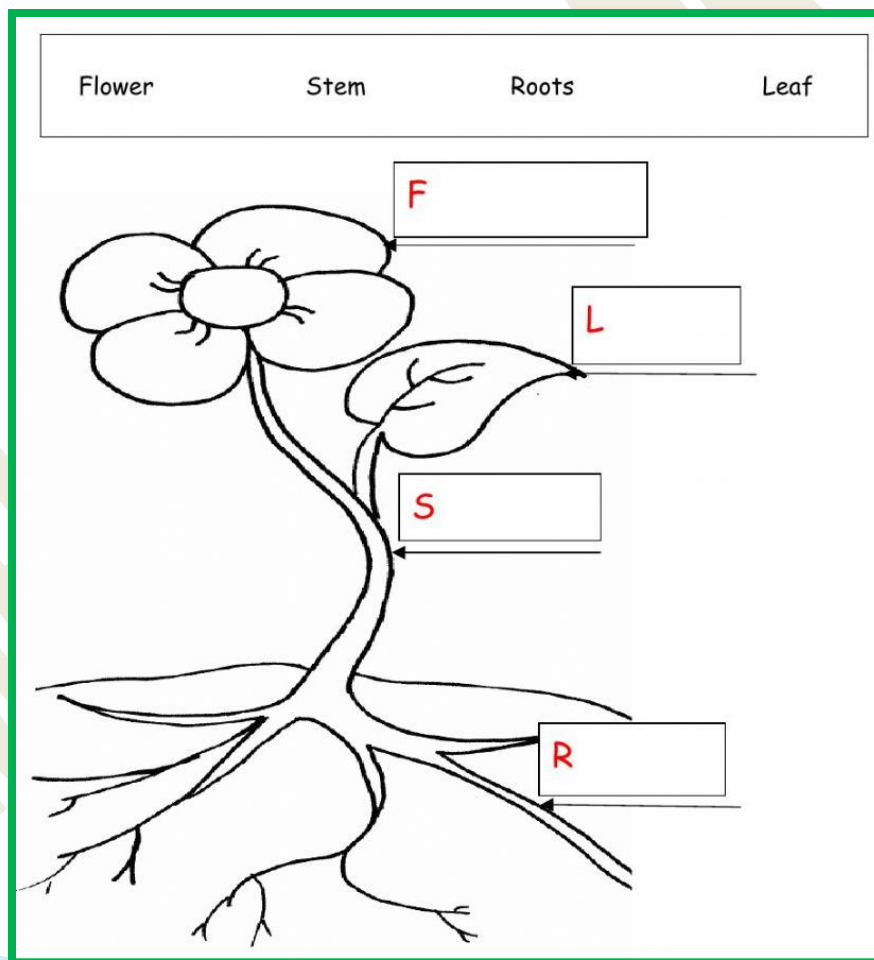

ACTIVITY 1

ACTIVITY 2

Label the parts of a plant

Amazing Health Benefits of Blue Butterfly Pea

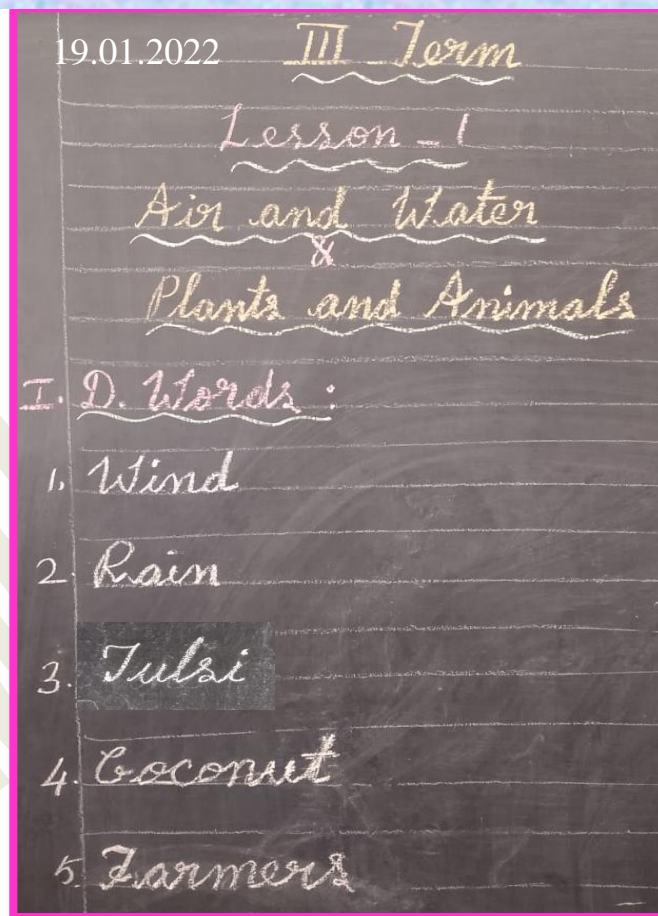

- 1 FIGHTS AGAINST CANCERS
